Proficient in data analysis, leveraging insights to optimize operations and drive efficiency.

WORK EXPERIENCE

Costing Manager – Footwear September 2022 – December 2023

Reebok International, Boston, MA

- Spearheaded the successful revamp of the Reebok costing framework, driving process improvement and optimization.
- Collaborated with suppliers to define and refine effective costing methodology, enhancing efficiency and cost accuracy.
- Played a pivotal role in achieving business targets through strategic cost management.

Costing Analyst – Footwear September 2018 – September 2022

Reebok International, Boston, MA

- Performed quantitative assessments to facilitate informed discussions on product value, margin, and pricing, optimizing cost efficiency.
- Developed effective costing tools and delivered training programs to various teams to align target costs throughout the product creation process.
- Revamped the Costing Analytics and Reporting platform, utilizing SharePoint to identify cost-saving opportunities and highlight plan gaps.
- Implemented a new tooling amortization process, resulting in a significant \$1.5 million reduction in seasonal tooling spending.

Business Continuity Planner March 2016 – August 2018

State Street Corporation, Boston, MA

- Streamlined data processes and automated report generation.
- Created a comprehensive Business Continuity Compliance Dashboard.
- Coordinated Application Disaster Recovery Exercises with IT teams and individual business units.

Accounting and Reporting Specialist May 2015 – March 2016

Bank of New York Mellon, Everett, MA

- Ensured the processing and support of complete, accurate, and timely financial statements.
